**MORE
POWER
TO YOU**

MORE BRAIN POWER.

What could you achieve with the help of expert peers?

When you join Vistage, you become part of a group of a dozen or so seasoned executives, like you, who meet once a month to help each other work on business issues, solve problems and evaluate opportunities. An expert Vistage Chair, typically a former successful CEO, leads, coaches and facilitates your group. Think of it as your own private brain trust, always there to help you tackle business challenges and surge ahead.

MORE ISSUE PROCESSING POWER.

What are the real issues your business is facing?

Vistage's unique Issue Processing, a hallmark of our groups, helps you uncover core issues, work through them, and take decisive action. This thorough, efficient approach forces you to push beyond your assumptions and think through the true dynamics of your challenges. Harnessing the collective perspective of your group and Vistage Chair, you'll find new power to process and resolve any business issue.

MORE PERSONAL POWER.

Professional and personal growth: one and the same.

Insight. Innovation. Leadership. Emotional intelligence. Self-mastery. Your Vistage group will prove invaluable in helping you hone these professional skills to advance your business. And, you'll find that what you learn at Vistage is just as beneficial to your personal growth. Because in truth, personal success, as in business, is ultimately about building great relationships – like the ones you'll forge at Vistage.
